HOW AMERICA IS LOOKING ON GENOA AND ITS TROUBLES

RUSS-GERMAN TREATY FAR REACHING IN CONSEQUENCES.

KEEP HATE ALIVE

Washington.—Although on the surface the American government gives the impression that the Russo-German treaty has no particular meaning to the United States, the truth is the wish is father to the thought. Officials hope it has no meaning. They would be as disturbed as Europeans if it should be known that the Russo-German pact meant a political upheaval in Europe and a consequent delay of reconstruction. Anything which makes the world horizon cloudy has its reflex here try as officials may some times to conceal their concern.

But the consensus of opinion here is that when all is said and done the Russo-German pact will literally be found to have very little meaning; that it can be a source of disturbance to the United States only if the other governments choose to pursue a policy which drives Germany and Russia into each other's arms and makes them interpret their treaty more or less as an offensive and defensive alliance.

The German Treaty.

On the subject of concluding separate treaties without consulting the other powers, very little is said in Washington for the United States negotiates a separate treaty with Germany and no official has yet spoken of whether the allies had any advance copies of it. In fact the evidence is that it is not.

Justice Jones May Speak at County 'Y' Meet

Plans for the county Y. M. C. A. convention to be held at the Congregational church at Evansville, Monday night, May 1, are being made by J. K. Arnot, Janesville, county secretary.

Selection of officers and directors will be held, and reports of the treasurer and secretary will be given. Although having gone through a hard year as far as finances are concerned, the program has been largely successful and the county older boys' conference.

Burr W. Jones, justice of the supreme court, will be the speaker at the Janesville Y. M. C. A. convention. Justice Jones was born and spent his boyhood in the town of Union, George W. Hull, of the Rock county Farm Bureau may also be a speaker.

Local Builders' Names Used in \$350 Forgery

A man representing himself as an engineer in the employ of Willis and Denson, Janesville contractors, who are building five buildings at the state hospital at Madison, cashed seven bad checks for \$350 each on Saturday. He gave his name as "Dillon" and the checks were cashed by the Willis and Denson printed upon them but issued on a Madison bank where the Janesville contractors do not have an account.

Toledoan Kills Wife and Self in Hotel Room

Los Angeles.—W. D. Heintzelman, Toledo, O., Thursday shot and fatally wounded his wife, Garnet Heintzelman and then killed himself. Latest telling of his intentions were found on his body. The shooting occurred in a hotel room.

Anybody Want Timothy Seed?

That is what the Shoemaker Farms Co. wanted to know. So they inserted an ad offering Timothy seed for sale. The ad ran two days and they had 30 replies.

Doesn't that make you wonder what results you would receive if you advertised one of your excess crops? Mr. Farmer? Thirty buyers from a small ad, run only two days, certainly shows that the people are watching the Classified Advertising page for offerings.

Why not take advantage of such a market and list your goods where the buyers come to buy?

Leaders of the allied delegations at the Palais Reale between sessions. Left to right, numbered, are: 1—Carlos Schanzer, Italian foreign minister; 2—Sir Robert Horne, counselor of the exchequer of Great Britain; 3—Premier David Lloyd George; 4—Sir Laming Worthington Evans of Great Britain; 5—Premier Facta of Italy, president of the conference; 6—Louis Barthou, head of the French delegation.

This Is a Tale of a Set of Wandering False Teeth Traveling to Many Courts

An adventuresome set of false teeth made by Dr. L. M. Holsapple for Harriet Scofield, 70, both of Janesville, has created quite a rumpus in Wisconsin courts. The set of teeth has been the sole subject of a series of trials starting in the justice court of Judge Charles Lange, then going before a jury in the Rock county circuit court and finally coming to an end in its judicial travels in the Wisconsin supreme court.

In July, 1920, the defendant, Mrs. Scofield, had dental work done by the plaintiff, Dr. Holsapple in which six teeth were removed and new teeth were made. Testimony in the case showed that Mrs. Scofield was suffering from inflamed gums and after impressions were made it was difficult to make the teeth conform to the mouth because of shrinkage of the gums. The defendant was dissatisfied and after making a payment of \$15 on the total bill of \$40, she refused to follow the instructions of the dentist to become accustomed to the teeth by wearing them.

To Justice Court. Dentists testified to the effect that it would be physically impossible to prepare a plate that would fit into the mouth of any person where the gums were rapidly and constantly changing during the shrinkage process.

The case was started in justice court and a verdict returned for the plaintiff. An appeal was taken to the Rock county circuit court. A 12 man jury pondered over the problems of one set of false teeth, and according to the supreme court decision, were impressed by the tears of the defendant during her testimony when she spoke of the trials and tribulations of trying to break in the teeth. At this time the court costs exceeded the total dental bill.

Jury Makes Decision. The jury reversed the decision of the justice court and found for the defendant. The set of false teeth journeyed up to Madison before the state supreme court and all the time the case piled up.

The supreme court deliberated justly and wisely on the issue for some months and then reversed the circuit court jury. The supreme court decision handed down declared that the testimony of the dentist called in for the trial was the pertinent evidence.

"The testimony of those familiar with dental work and services was all one way and to the effect that the work done was in accordance with the recognized standard of skill."

"It is uncontradicted that a satisfactory result could not be expected in the short time in which the defendant attempted to try the teeth furnished by the plaintiff and she herself testified that she refused to continue the trial. It follows that the court should have set aside the verdict and granted judgment for the plaintiff," reads the decision, and adds that the long case, there being no higher courts in which they can burden the best legal minds of the state.

Manchurian Troops Take Over Peking

Peking.—The troops of General Chang Tso Lin, governor of Manchuria, Friday took possession of Peking and Tien Sing, replacing the local police forces of those cities. Transfer of authority was devoid of incident.

Elkhorn Boy Is Winner in Essay Contest

Madison.—Ben F. Carter, 13, eighth grade pupil at Elkhorn, won first prize in the essay contest on "Mount Vernon," John Callahan, state superintendent of public instruction, announced Friday. Marlon McKee, 13, eighth grade pupil at Richland Center, was second, and Adeline Lee, 11, sixth grade pupil at Chippewa Falls, was third. Mrs. Mary E. V. Hanks, vice regent for Wisconsin of the Mt. Vernon Ladies Association of the Union, offered prizes of \$15 for first place, \$10 for second and \$5 for third place.

FOX RIVER VALLEY FACES INUNDATION WITH FRESH FLOOD

TWO-FOOT RISE WILL SWAMP LOWLANDS, ASSERTION.

REINFORCE BANKS Situation at Appleton Critical; Many Cottages Are Destroyed.

Appleton.—Slight improvement in flood conditions in Appleton noticeable Friday, but a more critical flood stage is anticipated when the water from the Wolf river, which is rushing into Lake Winnebago faster than it can be taken out, arrives here. It is feared a rise of more than two feet will result in the inundation of the entire Fox river valley, according to the United States engineer's report.

The dams of the locks, dams and banks of the Fox river was completed Thursday by government engineers and the situation was viewed as critical.

Games Strengthened Banks. More than 300 men now are reinforcing the canal bank in Appleton with sandbags to prevent a break. The dams of the Fox river valley are standing up well, but the hurricane of Wednesday backed the water into Lake Winnebago and when this water comes down the river the dams from Oshkosh to Green Bay will meet the supreme test.

An artificial dike was built at Kimberly, near here, to protect the Cedar Locks there. Workmen are also building up the banks around the locks at Neenah.

COTTAGES ICE HOUSE DAMAGED BY FLOOD. Oshkosh.—At Sunset Point summer resort, five or six summer cottages have been destroyed above and below the dam. The front of the Northwestern railway ice house at the mouth of the river here caved this noon.

SUPPLIES ARE SENT TO FLOOD REFUGEES. Chicago.—Rivers in Illinois, Indiana and Iowa, which have been at flood stage and above for several days, are now wearing away the protecting levees in several localities.

Three levees along the Wabash river in Indiana broke. The levee at Vincennes, Ind., was reported under water.

Food was provided for 400 homeless residents of Naples, Ill., and assistance was given to families along the Mississippi who had been taken to Cairo.

Flood conditions were also reported serious at Muscatine, Ia. Clinton and Davenport. Three Muscatine plants have shut down.

Along the southern Mississippi large forces were working to strengthen levees against the rush of waters.

ONCE WELL TO DO, MYSTERY MAN DIES IN ABJECT POVERTY

Savannah, Ga.—Savannah's "man of mystery," Julius Romaline, is dead.

More than a quarter of a century ago there came to Savannah a man who took up his abode in a rooming house. Each Monday he received a letter at the Savannah postoffice, all trace of which he carefully destroyed. Always reticent about his past life, he avoided all who sought to question him.

Then after a few years, he seemed to turn against his strange life. For some reason his dress became more and more tawdry. His abode became a mere shack, his environment the dirtiest tenement. His ragged and patched clothing was pieced and patched with sackcloth.

His body is being held at a local undertaker's in the hope that the man's death may call some echo to identify him from the past he concealed so well.

W. D. CONNOR MAY BE GOVERNOR ASPIRANT

Madison.—W. D. Connor, Marshfield, well known lumberman and former lieutenant governor, was reported here today as favoring to submit his name to the convention of the Committee of 44 as a candidate for governor in the September primaries.

Mr. Connor served for several years as chairman of the republican state central committee in Wisconsin, and has been active in politics for 25 years. He is said to be willing to abide by any decision that the convention in Milwaukee, June 1, makes with regard to candidates.

Turkey Taken in by Russ-Germans in New Combine

Genoa.—Germany and Russia, asserted the Cattidino Friday, already have agreed with the Turkish nationalist government at Angora on a common program of foreign policy. This, it argues, will constitute a grave menace to the other powers, especially the Balkan states.

As justification of their contention that the allies could not as a matter of right demand compensation for property, the Russians cite the abolition of slavery in the United States, where neither Americans nor foreigners were compensated. They also cite the adoption of prohibition in America, as a case where no compensation was given to the producer of alcoholic drinks.

RUSSIA READY TO PAY DEBTS IF Genoa.—With the German and Russian replies to the allied notes before them, the committee of allies met Friday to consider both Germany's apologies for the delay, says there were differences in the German delegation over the text of the reply. The note asserts the justice of exclusion from further parleys regarding Russian affairs covered by the Rapallo treaty. The German note says also that the delegation does not believe the treaty is the spirit of the conference and contributes to the peace of the world.

Russia says that if they are granted recognition and aid, they will give adequate financial aid, they are willing to admit Russia's war and pre-war debts, waive counter claims and restore nationalized property or assets of Russian owners in such cases where property cannot be restored.

King Victor Emmanuel will arrive at Genoa Saturday to visit the allied troops and to discuss on a battleship, to which all the delegates have been invited.

It is not known whether the Russian delegates will attend the conference, being urged by the Italian communists not to be present.

NEUTRAL NATIONS ARE ACTING INDEPENDENTLY. Genoa.—The neutral nations are acting independently at the Genoa conference, not in a bloc as believed in some quarters, declared the Marquis of Gilla-Urreina, in outlining the attitude of his country toward the meeting. The Marquis heads the delegation from Spain, the most important of the countries which remained neutral during the world war, especially financial and economic, which they will foster as was announced before the meeting held at Bern, but otherwise each is quite free to follow the policy which best suits her interests.

DOUBT AID TO WORKING FOLKS AT GENOA MEET. Rome.—Lack of confidence in the accomplishment by the Genoa economic conference of anything worth while for the relief of the working people of the various nations was expressed in the address today inaugurating the congress of the Amsterdam international here, representing 24,000,000 organized workmen. Representatives of all European countries were present.

Sec. Wallace Will Speak to the Greatest Audience Since the World Began

Washington.—Secretary Wallace of the department of agriculture, will attempt Friday night on Arbor day eve, what is described as the most widespread radio broadcast of a single message ever to be made. The message will be transmitted at 9 p. m. Eastern time, from the government station at Arlington, Va., San Diego and San Francisco, the Great Lakes naval station and all army and navy communication stations, and by the Radio Relay League and Radio Broadcasting stations.

Radio experts say the "voice of the secretary" will reach more people than any human voice since time began. One year ago there were about 60,000 radio receiving sets in this country. Today there are over 800,000 and the present monthly increase is estimated at 100,000.

DUBLIN BARRACKS IS SCENE OF HOT GRENADE BATTLE

BOMBS CAUSE PANIC IN RESIDENTIAL SECTION OF CITY.

PAPER IS RAIDED

Armed Men Smash Type Frames; Belfast Riots Deaths Continue.

Dublin.—The attack on the Wellington barracks, which began at 11:15 p. m. Thursday night continued 40 minutes, when the besieging forces were beaten off by the garrison of regular Irish republican army troops.

An attempt was made to rush the front gate and two grenades were hurled, slightly wounding three of the garrison. The guard replied with a grenade and it is believed two of the attackers were wounded, as they were seen being assisted away by comrades.

The fighting in different parts of the city, while it lasted, was even more intense than that of the previous night, the explosions of bombs causing the greatest alarm.

In Residence Section. Wellington barracks, which is in a densely populated residential section, was the last barracks here to be evacuated by the British and is now responsible for military action in Dublin. Beggar's Bush barracks began the general headquarter of the provisional government's forces.

The firing about Beggar's Bush barracks Thursday night was comparatively light, but a fusillade of shots was heard at 11:30 p. m. Four Courts, recently seized by the independent forces under Rory O'Connor.

The firing of revolvers in various parts of the city at night has grown in force, but it has had about the same effect as a curfew law, peacefully citizens retiring to their homes at an early hour.

ARMED MEN SWASH NEWSPAPER FORMS

Silgo, Ireland.—Armed men raided the offices of the Silgo champion Friday and smashed the frames of type for this week's issue, apparently in order to prevent publication of the newspaper's report of Sunday's meeting when Arthur Griffith, president of the Gaelic League, delivered an address in favor of the free trade. The raiders tore up 10,000 partly printed copies of the paper, but spared the linotypes and other machinery.

LOOTERS ARE RUN OUT OF TOWN BY POPULACE. Belfast.—Firing was again in progress in the Short Strand area of Belfast, Friday. A sergeant in the special constabulary was the first casualty of the day.

Two deaths in the hospital Thursday night and the death of Andrew McCartney, one of Thursday's wounded, raised the Easterfest list to 12. The men discovered looting in the Falls district, were tried and sentenced by republican police to be tarred and feathered.

The sentence was carried out and thieves were marched down the street labelled "Looters, beware."

Chicagoan Buys Geneva Estate of Selfridge

Lake Geneva.—Harry Gordon Selfridge, native of Wisconsin and known as the successor to Mr. Marshall Field as the successor to Mr. T. C. Folger, announced the sale of his large Lake Geneva estate to E. C. Waller, Jr., Chicago real estate man. Selfridge spent much time at the Lake Geneva estate, which he bought in 1908. The place was built in 1893 and adjoins that of John J. Mitchell, Chicago. The deal is said to involve \$200,000.

Bank Changes at Footville and Orford

Resignation of T. E. Tollerud, 20 years cashier of the Farmers and Merchants Bank of Orfordville, will result in important changes in the personnel of the Footville State bank.

A. C. Gaarder, for five years connected with the Footville bank as cashier, will return to his home at Orfordville, as the successor to Mr. Tollerud. Mr. Gaarder's position will be taken by W. A. Canary, since 1919 a book-keeper in the Rock county Savings and Trust company.

Mr. Canary was connected with the Footville bank for three years prior to his enlistment in the navy at the outbreak of the war. He served for 13 months in the U. S. Navy and took up position with the Janesville bank when honorably discharged.

MISSION OFFICERS ELECTED AT MEET

Evansville Convention Closes; La Crosse Is Host for 1923.

[SPECIAL TO THIS GAZETTE.]
Evansville.—Mrs. V. C. Peabody, Ad-
vocate, was elected president of the
Wisconsin Board of Missions of In-
terior, and Miss Lucy Walker, Milton
honorary president at the closing ses-
sion of the 7th annual meeting of the
organization, meeting jointly with the
39th annual meeting of the Wisconsin
Woman's Home Missionary Union, here
Thursday afternoon.
La Crosse was chosen as the con-
vention city for 1923.
Other officers elected are Mrs. E.
W. Strickney, Milwaukee, first vice
president; Mrs. G. J. Worcester, Mad-
ison, second vice president; Robert T.
Chapin, Deloit, third vice president;
Mrs. A. C. Altier, Madison, treasurer.
The following are secretaries: Mrs.
A. C. Hough, Janesville, correspond-
ent; Mrs. V. T. MacDowell, Fond du
Lac, recording; Mrs. T. H. Ralph, De-
loit, literature; Mrs. E. J. Hughes, Mil-
waukee, young people; Mrs. Thomas
DeSwardt, Waunatona, children's
work; Mrs. M. Jordan, Milton, assis-
tant children's work; Miss Susan Jeff-
ris, Janesville, foreign correspondence.
Officers of the Home Missionary
union were elected Wednesday.
Half of Sum Raised.
Treasurers report given by Mrs. A.
V. Miller, Madison, Thursday showed
one half of the year's apportionment
of \$1,400 had already been raised.
Mrs. E. S. Worcester, Madison,
thank offering secretary, told of the
Golden Jubilee in 1925 and said the
thank offering to that date should be
used for Kobe college in Japan. The
goal to be reached is \$10,000.
Mrs. A. C. Hough, Janesville, said
Wisconsin was supporting seven mis-
sionaries. She gave a report on "Op-
portunities and Responsibilities." An
enthusiastic report of the work of
missionaries in foreign lands was
given by Miss Mary D. Ulino, Chicago,
formerly a missionary in Turkey.
All Chinese Work.
Luncheon was served by the Epis-
copal church women. Miss Lucy Walker,
Evansville, Ill., president of the
Wisconsin branch of the W. B. M. I.
for 21 years, led the prayer service at
2 p. m. Speaking of her work as a
missionary in China, which is sup-
ported by the Wisconsin organization,
Miss Josie Horn said that almost
without exception all the girls above
the fifth grade in the schools at Fen-
chow, China, were Christians. Many
are turned away from the school be-
cause of poor hearing facilities.
Pledges for a furnace fund of \$45 were
taken at the meeting. The Evansville
society pledged \$15.
Mrs. Katherine Gates, a missionary
from India, told of the gradual chang-
ing marriage customs as the result of
Christian influence.
The total number of delegates which
attended was 128.

Encampment of Guard Assured, Says Adjutant

Madison.—Assurance that the 1922 encampment of the Wisconsin National Guard would be held as sched- uled, was given by Orlando Holway, adjutant general Friday, after his return from Washington, where re- quest was made for added appro- priations.

He said that misunderstanding in congress had resulted in a cut in the funds for summer encampments, which made plans for Wisconsin un- certain, but that definite agreement was reached that this deficiency should be made up. This means, General Holway said, that the cav- alry troops will open the camp at Douglas, July 3, when all units of this branch of the service in Wis- consin go into the field. The first division of the infantry will start training at Camp Douglas July 17, continuing until July 31, and the sec- ond division will start its work Aug. 1, remaining until Aug. 15.
The artillery units of the 12th re- giment will start training at Camp Custer, Mich., Aug. 14, according to present plans, continuing until Aug. 28, while the units in the 12th will enter camp July 23, remaining until Aug. 11.
Wide Search Is Made Here for Missing Women
Janesville rooming houses and hotels were searched from 8 o'clock until nearly midnight, Thursday, for some trace of Mrs. Lillian Anderson, 32, prominent Rockford woman who has been missing from home since Saturday, having wan- dered away in a period of mental distress, it is believed. Chief Charles Newman led the searching party which was made up of 11 Rockford officers, relatives and friends of the Anderson family.
The investigation followed a "tip" from a Rockford clairvoyant, Mrs. Snyder, who advised Bert C. Ander- son, the woman's husband, and her brother, Coroner Olson, to waste no time in getting to Janesville. Ready to act upon the slightest clue, a searching party was immediately formed and the trip to Janesville was made in cars, taking less than 35 minutes. Every effort was made to locate her, but not the slightest signs were discovered of her having been in Janesville.
The disappearance of Mrs. Ander- son is made the more mysterious by word from Juda, Thursday, that Mrs. A. R. Dunwidde has been missing from her home there since last Fri- day. She left for Monroe on that day, taking a bus, and has not been seen since she stepped off from it.
Another unique part of the two mysteries is that both are believed to have left home to have dental work done.

BROWN LEAVES FOR YEAR AT WAUPUN

Bootlegger, Who Jumped Com- mitment, Weeps as Sen- tence Is Pronounced.

Joseph Brown, 47, transient la- borer, was taken to Waupun Friday by Deputy Sheriff Frank Britt for a year's term for "escaping jail, when he was not in jail." Arraigned before Judge Harry L. Maxfield in the Rock county municipal court here, Brown pleaded guilty. He wept during a 20-minute lecture by the court on his mis-spent life.
Brown wanted his parole writs under contract to a farmer. He dis- appeared and was apprehended lat- er after an exciting chase. Under the Wisconsin criminal laws, viola- tion of parole regulations is the same as actual escaping from jail. Even when in jail Brown made a second attempt to escape, tump- ering with the cell locks.
District Attorney S. G. Dunwid- die in recommending the prison sentence for Brown, declared that paroled men should be made to realize that refusal to work or run- ning away is the same as actually escaping jail.
Road Jobs for All.
As soon as the road work starts on the Evansville highway, cel. jail prisoners will be put to work. High- way Commissioner Charles E. Moore declares that the jail pri- soners will have "real jobs—handling cement and doing heavy duty with the shovel." Prisoners will be taken from the jail to the road in a truck and then returned at night to their place in confinement until the next morning.
Two in for Stealing.
Leo Williams and Ernest McCord, Deloit, were committed to the jail here for four months at hard labor when they pleaded guilty in Deloit to larceny from the person. They are charged to have enticed a Green county resident to a moonshine joint in Deloit and when the victim came out, robbed and assaulted him.

OBITUARY

Annie Rablio, the one and one- half year old daughter of Mr. and Mrs. John Rablio, died Friday morn- ing at her home, 325 South Wash- ington street, following an illness of ten days.
She is survived by her parents, two brothers and two sisters. The Rev. John Baccaria will have charge of the services. Funeral notice will be given later.
SAND COLOR, GREEN ARE SUMMER SHADES FOR WOMEN'S HATS
[BY ASSOCIATED PRESS.]
New York.—Sand color and bright emerald green will be the prevailing shades in women's midsummer and fall millinery. These two colors have just been selected by the Metropolitan Displaymen's club as the ones to be featured in retail stores throughout the country and shown in display win- dows here at the summer millinery opening, May 2. They were chosen from a group of 12 colors suggested by the Textile Color association of America.
STATES TO COMPETE FOR WILLARD BANNER IN W. C. T. U. CAMPAIGN
[BY ASSOCIATED PRESS.]
Chicago.—Competition between states for a banner, presented in 1898 by Frances B. Willard, is ex- pected to stimulate interest in the nation-wide membership campaign of the Women's Christian Temper- ance Union, which opens Monday, April 24, and will continue for three weeks. An attempt will be made to enroll one million members. The banner in competition is now held by California.
BALAKLAVA VET DIES IN ENGLAND
Liverpool.—Trumpeter James Richardson, a survivor of the famous Balaklava cavalry charge im- mortalized by Tennyson, died here aged 91. Two years ago, seven can- ister shots were removed from his shoulder, where they had lodged for 64 years without causing him dis- comfort.

Janesville Pure Milk Company's Milk and Cream Is of the Highest Standard

We are Customers!

Let's look at this com- paratively unfa- miliar side of storekeeping for a moment. You who are well-versed in the mer- chant's role as seller, should be equally inter- ested in his activities as a buyer. We are cus- tomers — perpetual shop- pers—in the markets of the world. Every day is buying day as well as selling day with us. Our specialists seek and find good merchandise wher- ever it is available and profit by the competition of manufacturers to se- cure every possible price advantage—which is au- tomatically passed on to you. But while we may influence production prices, we cannot control them. We are customers in the universal market, buying as good as we can for as little as we can.

We can buy for agree- ably low prices now, which is why you can do the same.

For the information of our patrons we wish to say that two weeks ago the sanitary inspector of the city of Janesville made an inspection of our milk and cream and pronounced our pro- duct to be of the highest quality. We were ad- vised at that time that we had passed the test satisfactorily and that he would recommend to the city council that we be granted a city license.

Due to a misunderstanding as to the date of making application for the license our applica- tion was not presented to the city council at the last meeting. It has been our ambition at all times to give our customers the highest quality of milk and cream and the mere fact of obtain- ing a city license will not alter the quality of our product in any way.

We expect to make application for a license at the next meeting of the city council. Our Patrons may therefore rest assured that the quality of our milk and cream will continue to be of the same high standard as it has always attained, which ranks much higher than is re- quired by the health department.

State Will Rest Late Friday in Kneeskern Case

[BY ASSOCIATED PRESS.]
Decorah, Ia.—The state will rest its case late Friday in the trial of B. F. Kneeskern, accused of the murders of Mr. and Mrs. Charles Van Brocklin. County Attorney Nel- son announced at noon.
The state has examined only 25 of the 52 witnesses it subpoenaed. Defense attorneys announced they will examine 22 witnesses and that the examinations will not be lengthy. Several witnesses were examined by the state Friday morning. Es- tablishment of a motive for the mur- ders was evidently the object of the state. John Tiele, a laborer, testi- fied regarding a conversation he said he had with Kneeskern in August 1921. Tiele said he told Kneeskern that he had been caught down in the bottom land with Mrs. Van Brocklin. The witness said Knees- kern replied: "If I caught you in the same circumstances, I'd mind my own business and not squeal on you."

Daughter of Pastor Wins Speaking Meet

Adelahaid Fuchs, daughter of Rev. and Mrs. S. W. Fuchs of St. John's Lutheran church, won the "declamatory contest" at the high school Thursday night, defeat- ing 11 other contestants. Edna Connors was second and Ruth Sen- nett third.
Each of the many entries, the contest lasted two nights. Six num- bers were given Wednesday night and the remaining six Thursday night. Others who appeared Thurs- day night were Clara Enoch, An- nette Wilcox, Nettie Sincow and Elvieve Raschid. The lengthy program was broken up by music by the high school orchestra, a piano solo by Dan Flannery and a violin solo by Chester Dixon.
Those who appeared Wednesday night were Wilhelmina Cook, Dor- othy Clark, Audrey Bell, Doris Rob- bins and Genevieve Hughes.
Judges were: Miss Florence Bab- cock, Miss Della Halgrove and John Arbuthnot. Coaches were Mrs. Mary Boyd, Miss Lulu Ered- low, Miss Irene Enoch, Miss Black- man, Miss Grant Alexander, and Miss Louisa Parker.
The winners of the first two places will compete with representatives of Deloit college at this city May 1. The winner of that competition will go to Whitewater, where delegates to the state contest will be selected.

Harding Signs Bill for Aid to Ex-Service Men

[BY ASSOCIATED PRESS.]
Washington.—Signature by Pres- ident Harding of the Langley bill, authorizing an additional appropria- tion of \$1,000,000 for hospital fac- ilities for disabled former service men, was announced Friday at the White House.
FORMER JANESVILLE GIRL APPEARS AT APOLLO THIS WEEK
Miss Carrie Scoville, daughter of Mr. and Mrs. Nesbit Scoville, former residents of this city and now of Chi- cago, will appear on the vaudeville stage with eastern stars in the bill of the Apollo theater Friday, Sat- urday and Sunday. She is in a musi- cal and comedy act, entitled, "Sco- ville and Geal."
Miss Scoville was a well known Janesville high school girl. Her first stage appearance was with a Catholic review at the Myers theatre when she was very young. She played the part of a suffragette instantly showing her talent for the footlights.
The Scoville family are professional actors. Miss Scoville's mother was well known on the stage.
PIANIST MAKES FIRST APPEARANCE HERE
Showing a remarkable knowledge of the famous artists, whose works she reproduced with ease, Miss Margaret Wilson, Chicago pianist, who was born and raised in Rock county, de- lighted music lovers who saw her make her debut in Janesville, at li- brary hall, Thursday night. Miss Wil- son was visiting at the home of her relative, Fred Snyder. She appeared here under the auspices of the young people's class of the First Christian church.

Cheboygan, Mich.—The wooden passenger steamer Colman, cap- tained by Cheboygan and Bois Blanc Island, is believed to have sunk in Lake Huron Thursday night, fol- lowing removal of her crew and single passenger by coast guard crews.
The crew and captain, O. Metevier, keeper of the Bois Blanc light, the single passenger, were removed to Bois Blanc Island and a doctor at- tended to the injured. The rescue- men declared the ice had torn a large hole in the steamer's hull and that she was doomed.

50 Injured in Explosion of Gasoline

[BY ASSOCIATED PRESS.]
Los Angeles.—Probably 50 people were injured, a number of them fa- tally, when an oil station at Fourth and Crawford streets caught fire at Downey Friday, and the fire rushed the underground storage tanks, caus- ing them to explode with great force, throwing debris many feet. Downey is a small town about 15 miles south- east of Los Angeles.

STORE TO OBSERVE 48TH ANNIVERSARY

\$300 in Prizes, 15 Different Exhibits at Sheldon's Next Week.

The forty-eighth anniversary of the founding of Sheldon's Hardware store, one of Wisconsin's leading hardware stores will be observed all next week with special bargains on all goods, and also cooking demonstrations.

The store was founded in 1874, at that time called Hanchett and Sheldon and was located where the Beverly theater now stands. The business was mainly in hardware, and a few groceries. At that time the store was represented by a number of traveling salesmen, and acquired a state-wide reputation soon after it was founded.

Wholesale and Retail.

Twenty-three years ago the location was changed to the present location, in the store now occupied by the Varsity. Three years ago, the present location, on South Main at the corner of Court was taken, as the floor space was "triple the other."

The concern now handles wholesale and retail hardware and factory supplies. Salesmen represent it all over the state. Besides the main store, a branch is located at the corner of Court and Main. The branch store is used as the tinshop on North Bluff was abandoned some time ago.

\$500 in Prizes.

Three hundred dollars in prizes will be given away next week. The anniversary last year was held one day and the crowds in the store then made it necessary to extend the time to a week this year. There will be 15 exhibits in the store to demonstrate ovens, washing machines, ironing machines and kitchen cabinets. Women will be there to cook cakes and other things to eat, which will be given away.

For every dollar's worth of merchandise purchased that week, a key will be given to the purchaser. All keys will be different, and the person holding the key will be able to win the white enamel kitchen cabinet in the window now, will be awarded the cabinet.

Officers of the concern are Fred S. Sheldon, president; Owen B. Skavlem, vice-president; V. C. Wright, treasurer; and Miss Josephine Bright, secretary. Mr. Skavlem attends to the retail business and Mr. Wright the wholesale.

Orchestra Fluke

Mars Legion's Initial Dance

Thompson's orchestra of Madison failed to appear at the army here, Thursday night, and as a result, the first annual dancing party of the Mars Legion could hardly be termed a grand success. But legions were not to be outdone, and finally rounded up an orchestra of negroes appearing in the Georgia Minstrels at the Myers theater and the dance proceeded although somewhat late in getting under way.

Members of the legion are up in arms over the failure of the Madison outfit to fulfill its contract and propose to take action.

With the hall attractively decorated and 100 couples present, many of the men in uniform, the non-appearance of Thompson's orchestra was a disappointment and for a time the calling off of the affair was threatened. With an improvised combination of home talent, dancing began at 10:15 and at 11 o'clock the colored orchestra arrived, playing until 1 a. m.

Coffee and sandwiches were served from a Salvation Army canteen in one corner of the hall. A huge American flag was suspended over the middle of the army with scores of service flags and Allied emblems on the walls.

JAIL FOR SUPER-BOOTLEGGERS

Heavy fines and imprisonment sentences for former prohibition officers and super-bootleggers by Judge Geiger, of the Federal court, in Milwaukee, have taken some of the carniage and jett out of the business of illicit whiskey traffic. One of the men sentenced is Thomas Delaney, former member of the assembly and the first Federal prohibition officer of the state. He had many things promised for the future, troops of friends, honor and position entailing confidence of his fellow man, but he preferred to throw all into the pot and drag out a few dollars smelling of bribery and crookedness. There is, in spite of a feeling that justice has been the guide, something akin to sadness about this case of Delaney's. Toward the men who caused his downfall, the men who snapped their fingers at the law and ridiculed it, the men who made fortunes out of conspiracy, there is no such feeling. It may be a lesson to the agents of the government still in office and bring a full realization that it is safer to monkey with a buzz saw than it is to fool with the Federal courts.

ONE RAY OF HOPE OUT OF THE GENOA MIST

Lloyd George is the cheerful optimist. He says that out of Genoa there will come much good to the world. Hope is expressed that a compact will be made ending war by stopping acts of aggression. If so, Genoa will have accomplished much. Germany and Russia betrayed the allies and committed an act of treachery in signing a treaty without approval of other nations when negotiations covering all the points at issue were being discussed. That act fanned into flame, age-old hatreds and racial prejudices. New alignments were made on the old boundaries. The entire sympathizers at once became more sympathetic and the old friends of the allies joined Britain and France. Politics took first place as it was predicted by Secretary Charles E. Hughes, would happen. It was not then, nor is it now a place for America where a conference is led and controlled by seething political emotions.

After the conference has worked out some plan for the reduction of debased currency, for credits and reparation payment, it is time for the United States to examine the result and see what we can do to assist.

About the only suggestion so far is that we cancel European debts and buy in enormous quantities of European products whether we have them in our own markets and made here, or not. Nothing at all constructive has come from Genoa and the only recommendation made worth considering is that there be called an international monetary conference in which the United States should participate. This latter is entirely feasible and in no way involves us in European politics.

Mrs. Asquith says she needed the money for her lectures. So far we have heard of no one who needed the lecture.

Strange news comes from Detroit—news that has disconcerted the world of crime. Officials have discovered in Detroit that the way to stop crime is to use the prisons for the habitual criminal, to stop the protection of the criminal by bench and bar and politicians and to put the criminal in the penitentiary and keep him there. The coddling of prisoners, the sale of them by mistaken reformers and idealists and lazy and incompetent officials have contributed to more crime than any other factor, according to the Detroit statement.

Fatogonia and the plesiosaurus have disappeared even as Yip from the newspapers. Only Genoa remains.

Usually earls and dukes are mad from pickles makers and brewers or good advertisers of soap or soup in England. These middle class persons who make large party contributions and assist in the maintenance of the members of parliament receive their reward in a title. Therefore it is a welcome change to note that a distinguished statesman and leader, Sir Arthur Balfour has been rewarded with an earldom, although one hardly thinks that Mr. Balfour can be honored by a more title and the fustian and frippery of nobility.

Senator Reed says he has been grossly insulted. Didn't know it could be done.

Owing to the rains and the condition of some of the yards and gardens, it has been thought well to postpone the Clean-Up week program until next week. This, however, should not deter those who have yards to clean from beginning

The Navy—Big or Little?

By FREDERIC J. HASKIN

Washington—Aside from its purely humanitarian aspects, one of the reasons for the retention for the limitation of armaments recently concluded in Washington, was economy. Congress has taken the economy factor so to heart that it is now maintained that if the naval appropriation bill in its present form becomes law, the United States will be in naval power considerably below the place it is supposed to hold, for defensive purposes, in the so-called "5-5-5 ratio."

The basis of the ratio is capital fighting ships—super-dreadnaughts and modern battle cruisers. Yet it is elementary that the most powerful fleet in the world, without the proper, trained complement of men, is of little or no use as a unit of defense or offense. And there, opponents of the bill now in Congress maintain, is the weakness and the threat to the United States.

Navy department experts maintain that to keep the navy in a state of efficiency, at the strength in ships which is allowed by the four power treaty, a naval personnel of no less than 90,000 should be provided for by legislation. That is the minimum, and for maximum efficiency and to provide for all emergencies the country might face, 120,000 men are required according to naval experts.

The treaty into which America has entered allows the United States to keep 18 capital fighting ships of modern type. It is estimated that with the 57,000 personnel provided by the naval bill now before congress, only 13 of these vessels could be kept in commission. The other five ships would be "in ordinary," which means that 500 men would be aboard each one to keep them from being utterly ruined. The Japanese navy, supposed to have but three-fifths of the strength of the American naval forces, will have a personnel of more than 68,000 men. Great Britain, limited to the same number of capital ships as the United States, will have a naval personnel totalling about 104,000 men. The ships themselves mean nothing, nor do the guns, with no one to operate them.

Not only will the men to man the big ships be lacking if the present measure becomes law, but the manning of auxiliary craft will be impaired practically to the same extent. To operate battle ships with efficiency, destroyers and vessels of other types must be operated with them. The navy department estimates that with the personnel supplied, it would be possible to keep in commission a naval tonnage of 704,148, while Japan, although on paper having but three-fifths the strength of the American navy, will be able to maintain 690,000 tons in commission—to all intents and purposes, a navy quite the equal of the American strength.

The argument of the proponents of the smaller personnel that destroyers are not vitally needed is answered by the naval experts with the fact that the United States is practically without any light cruisers. Other naval powers do not suffer from this lack. In the event of trouble, the United States must depend upon its destroyers to function as light cruisers as well. They must be scouts for the fleet, carry on the service of information, develop the enemy attack, and screen the fleet. Until cruisers are completed and in commission, fully manned, the navy department experts claim, it is entirely improper even to discuss a reduction in the number of destroyers which must be kept in full readiness always.

Woodrow Roosevelt, assistant secretary of the navy, contends that the naval reserve cannot be maintained and built up under the bill now in congress. The possibility of manning eagle boats and submarine chasers is eliminated by the measure, he says, and this cuts off a very important adjunct of the Navy.

"When the emergency arises and the fleet has to be expanded quickly, a trained naval reserve exists months from the time necessary to put our fleet on a war footing," says Col. Roosevelt. Furthermore, we pride ourselves justifiably on the fact that in all times of national need, our young civilians rally to the colors. If they are to do so efficiently, if they are to have "a show for their white ally," we must give them an opportunity for training. We cannot do this under the present bill."

Col. Roosevelt calls the establishment under the proposed personnel a "lame duck" navy. By the bill, pride, safety, and influence of this nation are put in serious jeopardy, he believes.

The naval situation is viewed as more serious than it appears to be on the surface. The things the department wanted included in the bill are not things that can readily be reversed in time of trouble. Just as a "national army" of trained civilians, such as was proposed by Lindsey M. Garrison when he was secretary of war, undoubtedly would have met the need for trained men and officers—particularly the latter—in the World War, so a trained naval reserve would be of inestimable value should war come again.

It is a generally admitted fact that a few hundred thousand men with basic military training would have meant winning American troops into the trenches in France months sooner than was the case, where men had to be drilled and made soldiers "iron the ground up" in the many training camps throughout the country. The fresh troops from this country in large numbers sent across at an earlier date, would have meant terminating the fighting considerably sooner, according to military experts.

In the event of naval warfare, the need is even more pressing for a personnel trained in advance. One of the main reasons for this is the fact that the ships for training new men would be engaged in fighting, and the men would have to be trained in their duties on shore as best they could be trained under this handicap.

However, the majority of the members of congress are facing fights for their seats in the elections this fall. With the country demanding economy and prosperity, it is but natural that the personal situations of the men who must vote for and against the naval appropriation bill must be taken into consideration. There is a feeling here that the country at large is sick of war and of preparations for war, and that it is a poor time to try to arouse interest in the future protection of the country. The average citizen laughs at the idea of any kind of trouble in the near future, and sees no war clouds on the distant horizon. He feels that money spent for military and naval purposes now, when the nations of the world presumably are too poor to wage war, is like throwing it out of the window. The undeniable fact is that in the past expensive naval armaments of the first class have been superseded and rendered antiquated in a few years by new developments in ship and gun designs.

There are the two sides of the situation. Possibly next year, with the election past the navy will stand a better chance of securing the larger personnel so earnestly desired by officers and other experts.

JUST FOLKS

By EDGAR A. GUEST

CONTENTMENT has no fixed abiding place. No favorite haunt for weary men to seek; Her tongue is one which all may learn to speak; Her beauty sometimes lints the saddest face; The humblest home may know her gentle grace; She has been found upon the mountain peak And in the valleys left her lovely trace; Blessing alike the glorious and the meek.

She has sat down with grateful hearts at night And bowed her head in thanks for sleep's fare; Glad for the peaceful calm which nestled there; Her smile has made the cotter's cabin bright; Where hearts rejoice in life and all it gives; Though high or low the place, Contentment lives.

You are rather neat and dapper.
And I guess we may consider you the cheese;
At the lipstick and the plaster
We concede you a past master.
And we have no pronounced objection to your knees.

SAID the flapper to the flapper.
Hush; you're much too pert and chipper.
Cook the chatter, don't let it hang, if you can;
I'm no subject for your rables.
And I have no taste for babies.
Wait a cycle till you grow to be a man.

THE DIFFERENCE

I don't care how the robin sings
Or how the rooster flaps his wings.
I don't care how the sun may shine,
I can't cheer up for war is mine.
All nature may be glad and gay,
But I can never feel that way.
When the home team drops a game.

I care not how the rain may pour,
Oh how the price of wheat may soar.
The clouds may hang close to the ground,
And pessimists may grow around,
But happiness in me holds sway.
And naught keeps me from feeling gay,
When the home team wins a game.

Who's Who Today

GEN. PEDRO NEL OSPINA

Colombia's president elect and one of the leading figures in that country today is coming to the United States.

Gen. Ospina is not a stranger in this country. He came here the first time in 1870 to take a course in engineering and military. He came again as a member of a special mission after Panama's secession to protest to the U. S. against the dismemberment of the republic through the secession. The mission laid the foundation for the treaty recently ratified by the two nations.

He again came here in 1911 as minister to Washington.

Gen. Ospina was born in the presidential palace in Bogota while his father, Dr. Mariano Ospina, was president of Colombia. The elder Ospina was forced to flee to Guatemala to avoid political persecution while Pedro was a youth.

After his father's return to Colombia, the younger Ospina was sent to the U. S. from the U. S. he went to France for post-graduate studies. Then he organized a smaller arm to obtain precious metals in the department of Antioquia. Later he became active in the cotton and coffee-growing industries.

In 1916 he served as plenipotentiary to Holland and Belgium.

He becomes president next August.

LOOKING BACKWARD

FORTY YEARS AGO.
April 21, 1882—The State Board of Pharmacy met at Madison yesterday. E. B. Holmstreet, of this city, was elected secretary.—Thomas W. Keene, one of the most famous Shakespearean actors of the day, will appear in this city in "Macbeth" next Monday night. April 22—Mrs. Alva P. Russell died at her home in the city last night.

THIRTY YEARS AGO

April 21, 1892—Messrs. E. F. Carpenter, Archie Keld and John Anderson, who purchased the Schoor farm (50 acres) at the west bank of the river opposite Crystal Springs, announce that the level part of the tract will be sold at a small price for an amusement and ball park.—Promises are now made that, within a year, telephone connections direct between this city and New York will be established.

TWENTY YEARS AGO

April 21, 1902—By tomorrow, the Marzluft Shoe factory will be running. Many of the old employees, who were there before the disastrous fire, have returned to the city and to their work there.—There is no foundation in the report around town that brick-layers and masons are to go out on strike May 1.

TEN YEARS AGO

April 21, 1912—Efforts are being made here to secure playgrounds for school children. An investigation shows that Janesville is behind in this movement which has spread all over the country.—Dr. David Beaton, in his sermon at the Congregational church yesterday morning, spoke of the wreck of the Titanic, which was caused, he said, by people demanding luxuries on board instead of safety devices.

IF AT FIRST THE STARS COME OUT

I thought of calling this one "The Price of Jealousy," but some of my readers are so discriminating.

"Dear Dr. Brady:

"Three-years ago I started taking your pills" (I told Friend White that somebody was pinching my bakery deliveries!) "before going to bed and upon arising in the morning. At that time I was in a miserable state with chronic constipation. When I started I took just one pill. It caused me to be nauseated. (They do deliver some state stuff sometimes—I suspect they gather up yesterday's trade) and broke 'em over for today's trade." I wrote to you about it, and you advised me to continue, willing even though every blessed stick of furniture in the house slipped its moorings and rushed to get in my way. I followed your advice. Now I can and do take about 25 pills a day. I never skip my pills. I'm like a pit or physis of any kind. Instead of feeling 56, which I am, I feel about 40. All my friends congratulate me on my improved appearance.

Respectfully,

"MRS. S. L. F."

QUESTIONS AND ANSWERS.

Imitation Housekeeping.

... of course we don't really love children and mean some day to have a family of our own, but we must first make out just how toward paying for a home.

Answer—Old stuff. You had no right to marry. You held the view of life. You have cheated your husband, or he has cheated you, or you have both cheated each other. There is much too much imitation housekeeping in the country now, for the housewife to expect to get any of these self-styled "birth control" people. It happens to be a crime punishable by several years' imprisonment for anybody to give such information as you have the cheek to ask me for. You love children? Why you can never love anybody but yourself. A couple that would wait until a house—it isn't a home you have in mind, but a house—was built for, in whole or in part, before having children ought to be taxed about \$5,000 a year for childlessness.

Slip Grout, Slip Enough.

I am 5 feet 4 1/2 inches tall and weigh 125 lbs. I am a very nervous person and my relatives poke considerable fun at me and tell me I am getting too fat and that I should wear a corset in hot weather. I seem to be the one feminine member of our household who is not constantly complaining of aches and pains—all the others are firmly sold on corsets. Am I right in not wearing one, or will I will be in February. (Miss H. B.)

Answer—You are right, and slim enough. Stick to your own system, keep your own muscles on the job, and think of the long life of comfort and ease you will enjoy in the future.

Grapefruit and H. B. P.

Please inform your readers whether grapefruit is good for one who has high blood pressure. (K. A. C.)

Answer—I know no reason why one with high blood pressure should not eat grapefruit.

HOROSCOPE

The stars incline, but do not compel.

FRIDAY, APRIL 21, 1922

Lucky stars rule today, according to astrology. Mars, Mercury and the Sun are all in benefic aspect.

Advertising is subject to a sway making for large returns and all lines of public interest benefit while this configuration prevails.

Newspapers will have a prosperous year, it is prophesied, and there will be important books published. The time to fame of a novelist is indicated.

Construction of every sort is well directed today. There will be much building and the desire for home ownership will be stimulated by the stars. Persons who seek advancement in work they are carrying on should make much of today's opportunities.

Worship of success, whether it be financial, commercial or political, will be increasingly apparent in the United States at this time, owing to some national movement.

Seismic shocks in the eleventh degree east longitude may be expected after the middle of June.

Much rain and unpleasant weather are indicated for the Atlantic coast during the summer months.

India will continue under the most sinister influences for many weeks, the seers prophesy.

Death will end the careers of an unusual number of distinguished Americans during the summer quarter, if the stars are read aright.

Persons whose birthdate it is have the luxury of a busy, successful year. Unusual care in financial matters is enjoined.

Children born on this day are likely to be extraordinarily clever, industrious and popular. They probably will win success in whatever line of work they select.

Do You Want To Die?

A French scientist is authority for the statement that eating nothing but cooked foods would be fatal within a very short time. Cooking destroys vitamins, or weakens them, so that this essential food property is not present in sufficient quantities.

Citrus fruits—oranges and lemons—contain a very large amount of the powerful vitamins. The fact that many people are on the verge of malnutrition without knowing it, was demonstrated when out of 1,000,000 New York school children examined, no less than 20,000 were found to be undernourished.

To assist in thinking of ways of serving oranges and lemons, we are offering, entirely free, a booklet containing several scores of recipes in stamps for return postage. Be sure, though, that your name and address is clearly written on the lines of the coupon.

DERELICTS OF RACE

TRACK, STRANDED IN MEXICO, NOW BEGGARS

[BY ASSOCIATED PRESS.]

Mexico City—Derelicts of the race track, Americans who followed the ponies to Mexico City and then failed to win enough for car fare home, are making competition keen for their Mexican beggar-brothers.

During the day they frequent the main plazas of the city and waylay their more fortunate countrymen for the price of food and drink. They will camp by night at the race track where a kind management allows them to "hit the hay" free of charge but handicapped by a lack of knowledge of Spanish, they are finding work difficult to obtain, even if they look for it.

There is no organized American charity in Mexico City to care for them.

PLAYGROUND CUTS DOWN DELINQUENCY

[BY ASSOCIATED PRESS.]

New York—Under the kindly influence of municipal playgrounds, the juvenile delinquent is disappearing all over the nation. The Playground and Recreation Association of America announces.

A statement on the growth of public recreation activities during the last year shows almost \$2,000,000 was spent by 592 cities for that purpose—\$1,600,000 more than in 1920 by the same municipalities.

Spill this summer, he has not had time to steal anything else," a report from one city credited a juvenile judge with saying. Since they turned the sand lot into a regular baseball league in that city, Ball has been seen in the courts no more, the judge declared.

BEST SWINE FEEDS
TO BE SHOWN SAT.

Breed Associations Cooperate
for Madison Demonstration.

Wisconsin hog producers' day will occur at the agricultural experiment station, Madison, Saturday, April 22. The occasion will be one of the most important feeding demonstrations of the institution.

Frank B. Morrison and his associates will tell the swine raisers of the comparative value of yellow corn over white corn in pork production. Included in the list of other features will be a demonstration showing the better protein feeds for fall pigs and the importance of alfalfa hay for fall hogs.

The officials of state swine breeders' associations invited to cooperate with the experiment station in the demonstrations are: E. H. Parker, Rock county, president, Wisconsin Duroc Jersey breeders' association; C. S. Cushman, Columbia county, president, Poland China breeders' association; W. J. Foyette, Grant county, president of the Chester White breeders' association; and A. D. Whitmore, Walworth county, president of the Berkshire breeders' association.

Following are some of the features of the demonstration:

Yellow versus white corn—Five trials have now been carried on to determine the value of yellow and white corn. These trials show the decided superiority under certain conditions of yellow corn compared with white corn for feeding swine. One of the facts that it is rich in the fat-soluble vitamin. Several lots of pigs have been fed this winter in a further study of this problem to determine the actual difference in weight gain of the two kinds of corn when fed in various rations, and to find out how pigs can be successfully

Cocoon Oil Fine
For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most cheap and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisided cocoon oil shampoo (which is pure and entirely greaseless) is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply put two or three teaspoonfuls of Multisided in a cup of glass with a little warm water, then moisten the hair with water and rub it in. It will make an abundance of rich, creamy lather, and cleanse the hair scalp thoroughly. The lather clings out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it soft and silky, bright, shiny and easy to manage.

You can get Multisided cocoon oil shampoo at any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months. Be sure your druggist gives you Multisided.

Continued cold weather all over the country causes a dearth of new spring fruits and vegetables in the city. The middle of April usually sees pinapples and other fruits starting to arrive, but this year, only strawberries have come in. This fruit however, is lower in price, selling in the various stores now for from 15 to 25 cents a pint. Three weeks ago, they cost 40 cents for the same quantity.

Prices on other fruits—apples, oranges, grapefruit and bananas, remain the same as for the last few weeks. Apples are ten cents a pound, oranges 15 cents, grapefruit 12 cents. The cost, in order of appearance, is as follows:

Miss Eunice Cunningham and Francis Crowley are to play the leading parts, those of "Miss Betty Annesley" and "Miss Robert Warburton." The cost, in order of appearance, is as follows:

April Wool Market
Shows Few Changes

The demand for wool since the beginning of April has been irregular. Little activity was evinced in the wool market and prices hardly underwent any change. The inactivity and irregularity of the market is due to the tariff problem still hanging fire in the Senate Finance Committee. A number of the wool business of the market is the uncertainty of the industrial situation due to the garment workers' strike and to the slow demand for cloth.

Monroe—In a peculiar accident, the rear legs of a horse, valued at \$225 and belonging to Ole Lentz, Decatur township farmer, were cut off, necessitating killing the animal. Lentz's hired man was operating a disc harrow when the team became frightened and ran. The implement caught one of the horses and it was drawn beneath the sharp circular knives.

Spraying Orchards
for San Jose Scale

The fruit trees on more than three hundred different properties here are being sprayed for San Jose scale in the most extensive infection of this insect in Wisconsin. The work is being done by Hanson and Gilbert under the direction of E. L. Chambers, assistant entomologist of the state department of agriculture.

Apple and plum trees in a large section of the city were being killed by this dreaded scale insect to such an extent that the trees were taken up by the city council a year ago. The bid of the department of agriculture was asked and a survey of the infested properties made during the fall and a concentrated insecticide preparation is used, the work being done while the trees are dormant. Two treatments are planned, the first to be completed by the end of April, the other applied after the leaves drop in the fall. Weather conditions are delaying progress to some extent, but the work is now about three-fourths finished.

SEVEN LOCAL MEN PICKED TO FIGHT FOR TITLE HONOR

Membership of the Janesville "Y" volleyball team, which plays Milwaukee in the state tournament at Madison at 2 p. m. Saturday afternoon, was announced Friday morning by J. A. Steiner, general secretary of the local institution. The players are Phil Korst, Leon Battig, George Bassford, Fred Wright, W. G. Ziegler, J. A. Steiner and Elmer Arltun.

This will be Janesville's first appearance in the initial sporting event of its kind in Wisconsin. The Bower City will enter the event under the leadership of other cities being larger and having a wider choice of material. According to advance dope, Racine and Fond du Lac appear to have the strongest teams, but no comparative method of analysis is possible to enable predicting a winner.

The Janesville men will depart at 11 a. m. They may make the trip by automobile.

There is the tournament are Wausau, Madison, Milwaukee, Appleton, Racine, Eau Claire, Fond du Lac and Janesville.

There will be seven games played to determine the state champions. Cups and medals will constitute the trophies.

No city bowling tournament is to be held here this year. It was decided Thursday night by the board of directors of the Janesville Bowling association. The season is so far advanced that the officials deemed the weather will be too warm by the time a tournament is arranged and pulled. It is probable a rule will be inserted in the by-laws of the association next year setting the city tournament date before any other meet may be sanctioned by the J. B. A.

Minstrel Show at Myers Is Real Delight

The Georgia Minstrels, the first of their kind to play here in years, appeared at the Myers theater Thursday night to a well-laden house, which showed its appreciation by insistent and repeated applause after almost every number.

So many mediocre minstrel sketches are seen in vaudeville, that it is a great pleasure to see minstrels of the type of those appearing Thursday night. The entire company was made up of negroes or half-breeds, who displayed their racial characteristics—love of song and dance—in the program of musical and comedy numbers.

The first part was the minstrel show proper, while the second was made up of vaudeville specialties and a short sketch, "White Lightning." Old and new songs in the first part were interspersed with comedy, produced only as a negro can produce it. Old favorites were heartily enjoyed.

A quartet, a remarkable hoop act, and Chick Beeman, who proves to be an orchestra in himself, made the specialties interesting.

SON OF WISCONSIN WOMAN IS SUICIDE

Omaha.—The body of E. G. Tumm, 40, was found in his room at a local rooming house late Thursday night. Police forced an entrance after the rooming house proprietor expressed fears that Tumm was ill and had locked himself in. Tumm's throat was slashed and a razor lay near the body.

A note to his mother, who lives somewhere in Wisconsin, together with a draft for \$250 in her favor, was found in the dead man's clothing.

Tumm's divorced wife is said to live in Fargo, N. D.

Stoughton Forms Tennis Body

From a game that has found its greatest support in the past in the larger cities, tennis is now getting a stronghold in smaller communities. The latest convert to net ranks is Stoughton.

A tennis association formed there has purchased two lots and work has started on construction of three clay courts. Annual dues are \$25.

Officers of the club are Charles Guelson, president; C. E. Doellite, vice president; Isaac Lovejoy, secretary; and N. A. Nyhagen, treasurer.

MITCHELLS CONSIDER GO WITH LEONARD

Chicago—Billy Mitchell, brother and manager of Pinkie Mitchell had under consideration Friday terms offered by Promoter Floyd Fitzsimmons for a bout between Pinkie and Benny Leonard, lightweight champion, at Michigan City, Ind., on July 4. Fitzsimmons is searching for an opponent for Leonard. A series of championship contests are planned to be held in a new arena being built at Michigan City.

Nash Leads the World in Motor Car Value

THAT leadership which Nash cars are assuming everywhere throughout the country in their respective classes can be seen reflected nowhere more clearly and unmistakably than in the figures for the annual sale of motor cars by all manufacturers.

But a scant five years ago Nash stood 24th in volume of business yearly. Now Nash is in 8th place and that in itself speaks weightily as to the quality and value embodied in the fours and sixes that bear the Nash emblem on the radiator.

BOYS PREPARE TO SWAT 'EM EARLY

Prizes are Hung Up for Drive on Flies April 24-May 15.

The first organized "swat the fly" campaign of the city will be held here this spring, starting next Monday and closing May 15, or a little later, according to announcements made Thursday by J. B. Jolly, of the city work department of the Y. M. C. A., and Dr. Leigh Woodworth, city sanitary inspector.

Prizes for the first card of flies brought in, for the team with the greatest number and for the individual with the greatest number will be the objectives of the boys who will do their best to clean the city of flies. The early start for the drive will make it harder to find flies, but will add the city of thousands of times those that are now killed.

The Chamber of Commerce has already pledged prize money, and assurances have been made that the Kiwanis club and other organizations will also give money. Any contributions will be appreciated.

One dollar will be awarded to the boy bringing in the first card of 100 flies after the opening date, Monday, April 24. After this, one cent will be given for each card. Ten prizes will be given on a pin. At the close of the contest, the person killing the most flies will be given a special prize, as will the group having the best record.

J. B. Jolly is now visiting the various schools and appointing captains who will select their teams. Each team will have ten or twelve members.

Following are the captains:

Washington school—Clyde Krossin, George Bieseker, Lawrence O'Donnell and Owen Travers; Lincoln school—Van De Walker, Jefferson, Richard Nichols, Walter Schwegler, Crosby Summers, John Warden and John Whitton; Adams—Gerald DeLong, Leslie Wood and Donald Felt; Grant—Dale Litney and Stuart Lawrence; Garfield—S. Millard, John Robin and Boyd Trumbull; Douglas—Gordon Schulz, Howard Anderson and Clifford Smith; Jackson—Leo Gravel, Webster—Charles Granger.

Boys from the fifth through the eighth grades are eligible.

SHIP NEW AIRPLANE TO OCEAN FLIERS

Liberty, a new biplane, will be shipped by the government to St. Paul Rocks to enable the naval aviators to continue their trans-Atlantic flight. The plane is being shipped in the construction of their machine in landing on the rocks. It is believed it will be two weeks before the aviators can resume their journey.

WINCONSIN TOBACCO MARKET

Edgerton.—The Wisconsin Tobacco Reporter Friday says:

"Blasted week with its holidays observed by a large portion of the communities, was busy with other things, and the tobacco movement received only slight attention. To this was added unsettled road conditions, floods in some sections and general inclement weather, all combining to put the brakes on market activities. The present week, however, with a big downpour, followed by cooler weather but good drying weather, has brought the market back to normal. The houses are assured of sufficient leaf to keep all hands busy until well into the month of May.

The Barle Tobacco company, in securing through the recent deal of the present stemming force occupied during a couple years to come, but it will go on adding to its present large holdings at the prices which have prevailed with only slight variation since the first of the year.

"Clear leaf packers are not busy buying 1921 tobacco, but the farmers' holdings are eaten into by some purchases made every week.

"Shipments out of storage continue on the hand to mouth basis. There is no increased activity in the demand for old cigar leaf, though manufacturers are said to be in need of stock in response to a somewhat better market for cigars. Any large order for leaf has not been reported at this office.

In the judgment of the packers the leaf which has been sweet is not promising them any worry. Only that the amount of sound and highly do-

FATHER OPPOSES PARENTS SEEKING HIS OWN CHILDREN

Son was pitted against father and mother in a strange hearing held before Judge George Grimm in Rock county circuit court this week. Three bright and vivacious little girls were the central figures in the court proceedings to determine whether the grandparents, Mr. and Mrs. Charles Manning, 723 Pleasant street, should have their custody of their father, Charles Manning, now of Maywood, near Chicago.

The three children crowded close to their grandmother during the hearing before Judge Grimm—who had a problem to settle far harder than the most technical legal matter. It was a decision to largely determine the welfare of the three children.

"They know no other home, we want them and they want us," pleaded the grandmother—the mother of Charles Manning.

"I want my own children," argued the son.

The three children, Elizabeth, 8, Lillian, 7, and Margaret, 4, were present during the court session.

After the attorneys, L. A. Avery and George G. Sutherland submitted the facts of the case, Judge Grimm ordered that the custody of the children be left with the grandparents in Janesville until the end of the present school term. Soon after vacation starts they will be returned to the home of the father and remain there until next September.

The case was continued until September 4 when the court will hold another hearing to determine what is to be done. The father was ordered to pay \$250 to the grandparents for the support and care of the children.

Edith Gardner returned to the city after spending the vacation with their parents and friends. Mr. and Mrs. George Drummond, Janesville, and Mrs. George Pease, were given a surprise party Sunday at the home of Mrs. Whitford.

Mr. and Mrs. Elmer Leen visited their parents in Indian Ford Sunday, and attended the funeral of Marion Cox.

APE KILLED AFTER MANGLING KEEPER

Toledo.—Tony, Walbridge Park Zoo ape, Thursday attacked Louis Scherer, keeper of the zoo, and mangled his hands and legs. The animal finally was overcome when another zoo employee knocked him down with a shovel. Police shot the ape to death. Scherer's condition is serious. The ape, said to be the largest in captivity, attacked keepers on several previous occasions.

Slable leaf in the crop as a whole is disappointingly small. A matter that may be of greater interest to the manufacturers is a year from now than it is to the packers today.

PLAN NEW DANCE PAVILION AT PARK

Concrete Open-Air Floor to be Built at Riverside Shortly.

Extensive improvements will be made at Riverside amusement park for the 1922 season to open May 15, according to announcement made by manager Byron J. Jones, Wednesday.

Mr. Jones said he is planning to build a large open air dance pavilion, the idea being to continue the old pavilion as a permanent skating rink. The new dance pavilion will be strictly an open-air affair, built of concrete, 125 feet long and 65 feet in width according to present plans.

No dance orchestra has been hired as yet but Mr. Jones has several under consideration.

Other plans for park improvements consist of the erection of new docks, and grading of the entrance. It is proposed to build one large pier for the large boats on the river and three smaller landing-places for the small launches.

A crew of workmen is now on the job fixing up the road which leads from the end of the street-car line on North Washington street down to the park. Gravel will be used in the hopes of making a good, substantial highway.

Southern Half of County on Tour Next Week

Newark and Clinton will be the center for the child welfare special which begins its second week of work in Rock county, Monday. The clinic will be held in Woodman's hall from 9 a. m. to 5 p. m. Children living in Avon, south and southwest of Orfordville and the northwest corner of Newark will be examined Monday.

The special will be at the Smith school house on highway 61, Tuesday at the sumo hours when a clinic will be held for children of Newark and the district lying west of Beloit. The truck will go to Shoppers Tuesday night and will be stationed at the home of Mrs. Collins in the village. Words, if the patient makes the trip, will be given by Dr. Blanche W. Horner.

For two days Thursday and Friday, a clinic will be held at the city hall in Clinton from 9 a. m. to 5 p. m. Under the auspices of the Parent-Teachers association of Clinton a lecture and moving picture will be given at 8 p. m. Wednesday.

The child welfare special is sent out by the state board of health. It is in charge of Dr. Blanche W. Horner who directs the field work as pediatrician. Mrs. Mary P. Morgan, Madison, is in charge of the Child Welfare bureau. To carry a clinic to the far corners of Wisconsin for the purpose of promoting better health conditions has been Mrs. Morgan's aim for many years.

STREET BATTLES ARE RESUMED IN ITALY; FACTIONS LINED UP

Rome.—Sporadic disorders, attended by considerable bloodshed, are recurring between communists and fascists in various parts of Italy. At Trieste a street battle resulted in the killing of one fascist and the wounding of three others when the fascist invaded the communist quarter. Reprisals are planned by the fascist, among whom the nationalistic spirit is running high.

In Bergamo one man was killed and a score of others were wounded in revolver duels between communists and fascists. In Florence a peasant was killed and two persons were wounded in a nocturnal conflict among the extremists.

HOW AMERICA IS LOOKING ON GENOA AND ITS TROUBLES

(Continued from Page 1.)

dence has been at the other way—that the treaty was made without the consent of the allies on the theory that Germany and the United States could do as they please. This precedent is cited here today as justification for a German treaty with Russia, another former member of the allied group.

The burden of thought here is that the allied powers can find plenty of flaws in the German-Russian pact, plenty of grounds for charging a violation of the spirit of the Versailles pact and they can at a later day insist that admission of Russia and Germany to the league of nations cannot be permitted without an agreement on the part of Russia or Germany to renounce the new treaty. The council of the league has the power to interpret whether a treaty is consistent or inconsistent with the covenant of the league and it would be a simple matter for the council to find the Russo-German pact as coming within that category.

But it is not the latter day interpretation or use of the Russo-German treaty which is at the bottom of the problem at this time. The officials of the United States government whose specific responsibility it is to watch the Genoa proceedings are inclined to attribute much more importance to the results which the Russo-German pact will precipitate rather than the substance of the pact itself. In other words, if the pact makes the allied group realize that they cannot invite Russia and Germany into their councils as equals and really make private arrangements inimical to those two

RECEIVER FOR BOND COMPANY IS UPHELD

(BY ASSOCIATED PRESS.)

Superior.—Judge Luse, in federal district court late Thursday, issued an order denying the motion of the Madison Bond company for the discharge of the receiver, John S. Allen, appointed following involuntary bankruptcy of the company on March 20.

Today's order was the outcome of a hearing in petition of the bond company before the court on Monday.

Bond company attorneys contended that the company is solvent and alleged that the securities of the concern are in the vault of the Harriman Trust company at Madison.

FRIDAY

TANK UNIT TO GET
INTENSIVE DRILLCaptain Harmon, Home from
Camp Mead, Announces
Big Plans.

Extensive plans to so train the 32nd tank company, Wisconsin National Guard, Janesville, that are months in the making, are being carried out by Captain Harmon, commander of the unit, who will be starting at once by Captain Harmon returned Wednesday after taking an extensive course at the regular army tank school, Camp Mead, Md., from Sept. 1 to April 1.

While at camp, Harmon was accompanied by his wife. He has been at Camp Mead, Ill., during the early part of this month with his wife visiting her parents.

The plan formulated by Captain Harmon upon being admitted to the tank school at Washington, was met with such approval that it has been embodied in a pamphlet and will be made regular instruction for all tank companies of the national guard. The schedule will call for four drills a week, one in daylight and three at night.

To Add \$1,200 Equipment
At the daylight drill, all members of the company will be present. The company will be divided into classes of 20 each and take up reconnaissance tank tactics, and tank driving. In the three night drills, the organization will be divided into three groups, each attending a separate drill. This will make two drills a week for each guard unit.

These three classes of tanks will be further subdivided into classes of 20 to 25, two subjects being taught each night. When a man has completed the course, he will advance into the next group until every man has qualified in every subject. The entire course is expected to take two years. Recruits will be given rudimentary drill up to joining the tanks and when proficient will be assigned to a class.

This course requires \$1,200 equipment in addition to that already here. This will be provided by the state and federal departments.

Agents 9 Tank Units.
Captain Harmon's course, which has been worked out in detail will affect tanks in Illinois, Minnesota, Colorado, Pennsylvania, Alabama and Kentucky, and those at Texas and Washington, when organized. This will make nine companies.

It is the plan, states Captain Harmon, to link all nine corps areas of the United States army plan, including the national guard and regular army, to Washington by radio. This is to cut the expense of telegraph and telephone messages and tank work of the units. Part of the tank company is equipped now with a radio tank. It will be linked with the sixth corps area radio map in addition to its regular equipment.

Completed Mead, the officer completed courses in communication, which includes wireless telephony, and wireless telegraphy; reconnaissance and intelligence work covering battle maps, etc.; machine gun and 37 mm work. He also took light mechanical course, having to do with internal combustion engines; tank tactics with tanks in trench and open warfare such as street fighting and riots; and the operation of tanks and trucks.

New Machine-Gun Course.
The local tank company plans the installation of an indoor 37 mm. target. This is made possible by a new "sub-caliber" barrel which has been made by the ordinance department at Camp Mead at the request of Captain Harmon and paid for by the state. Another advance is the construction of an air-cooled machine gun which will permit the firing of tank cartridges, heretofore impossible, at the rate of 6-700 a minute, as against 500 with bullets. This will enable the use of machine guns in tank battles without danger to gunners.

"The state is watching the Janesville tank company closely," states Captain Harmon. "They are experimenting and attempting to make it a success. The local officers are anxious to improve the corps and unit, the city proud of the organization. We aim to give the men instruction of such nature they will be able to use it to advance themselves in their daily labors."

Recruit to Full Strength
A recruiting drive to enlist 15 members will be started June 1, increase the company to full strength of 105 officers and men. The present payroll is \$13,500 not counting the two weeks at Camp Douglas, which would increase this by \$2,000 to \$15,500.

Officers of the organization are in addition to Captain Harmon: First Lieutenants Pearl L. Grimschaw and Arup Ponnas; Second Lieutenants John Thiele and Henry Arndt. All these men have risen from enlisted men, including Captain Harmon. They are all World War veterans of the 32nd division. Captain Harmon served in Honolulu and organization work at Camp Grant.

PART OF CONTEST
IN DECLAMATION
HAS BEEN HELD

Six of the twelve numbers for the declamatory contest were given before the public at the high school Wednesday night, together with several musical numbers. The remaining six will be given at 7:30 Thursday night, after which the decision of the judges will be announced.

Those who appeared Wednesday night were Wilhelmina Cook, Dorothy Clark, Audrey Bell, Doris Robbins, Ruth Bennett and Genevieve Hughes. Belva Sorenson gave a vocal solo, "A Bowl of Roses." Phyllis Luchsing gave a piano solo, "Twilight" and "Polish Dance," a piano solo was given by Lloyd Sander.

Judges for the contest are Misses Florence Babcock, Della Halgrove and John Arbuthnot of the high school faculty. Fritz George A. Eastford acts as chairman, and Mrs. Mary Boyd, assisted by Misses Irene Bull, Blackman, Lulu Broadlow, Trent Alexander and Louise Parker, are the clerks.

Winners will go to Whitewater to compete for the district championship.

BUILD DRIVEWAY
Work on the new driveway in the rear of the postoffice, leading from the building to Dodge street, has been started by Hayes, County Engineer. Delay was caused by the red tape necessary in sending the contract to Washington for approval. It is a small job but will add greatly to postal delivery.

Bucharest—Children in a village school near Bucharest have contributed \$3 in Rumanian francs to aid the children of families made destitute by the destruction of the Knickerbocker theater in Washington.

Unable to visualize the vast extent of the United States, the youngsters believed the collapse of the theater was a disaster affecting the entire American people.

Rumanian children have received much help from their little American brothers and sisters through the Junior Red Cross and they chose this means of showing their appreciation.

GREATER NUMBER
ON HALF TIMEThousands Enrolled as Result
of Compulsory Education Law.

[BY ASSOCIATED PRESS.]

Madison—The first year of operation of the new compulsory part time education laws of Wisconsin has resulted in 2,651 pupils between the ages of 14 and 16 taking half-time instruction in the schools of the state. A total of 45,222 persons have been enrolled in day and evening continuation courses.

A single report was made by George P. Hambrecht, director of vocational education, who concluded that "there will undoubtedly be a further increase in the half-time attendance during the next year when all cities will be providing fully for half-time attendance."

Most Attend School.

This provision of the law, which Wisconsin alone of all states has adopted, requires that all children between the ages of 14 and 16, not enrolled for full time instruction, must attend school half time, and makes it obligatory on the schools to so arrange their courses of instruction so as to take care of the pupils. It is expected that some time will be needed to bring all children within provisions of the law.

There was an increase of nearly 3,000 in the total number of day and evening pupils in 1922 over 1921, the reports shows, the number growing from 42,529 last year to 45,222 during the present year. Of these 22,295 are day pupils and 22,927 evening pupils.

The number taking part time instruction fell from 20,859 in 1921 to 13,428 in 1922, while the all day instruction increased from 990 to 1309.

Sees Further Increase.

"While part time enrollment for 1922 is less than the part time enrollment for 1921, this difference is more than made up by the half-time enrollment for 1922," the board of vocational education reports.

"There will undoubtedly be an increase in part time attendance when all cities are fully complying with the part time attendance up to 18 years of age. Each half-time attendance in 1922 counts two and one-half times as much as each part time attendance. As a result most schools have considerably more to take care of this year than last year figuring on the total pupil hour attendance basis.

"It is also noted that there is a tendency toward increased full time attendance and that evening school enrollment and attendance is greater this year than last."

BASEBALL HUNT IS
PLANNED FOR MAY

A treasure hunt for all junior members of the Y. M. C. A. is being planned by J. E. Jolly to take place some time in May. The prizes are baseballs autographed by such stars as Ty Cobb, Eddie Collins, Tris Speaker, Red Faber, Ray Schalk and Grover Alexander—assured enthusiasm and success for the hunt.

The plan is to hide eight or more baseballs in various parts of the city. At a certain time the hunt will start and the boy who first turns to the association with a ball will have his pick of the autographed balls.
